# Harvest

You can harvest your crop on the fields and in FIELD MANAGER. Once you harvest a crop, the system will close the crop season and the field will be treated as empty.

(i) You cannot assign a new crop if the previous one is not yet harvested.

There are 3 possibilities to harvest your crop(s)

## 1. Harvest - in the Status menu

• Click on the field and in the top left menu click on the **Harvest** button

#### 2. Harvest - in the History menu

- Hover on the field's crop season you want to harvest
- Click the harvest icon
